

Creative Solutions for Schools that...

enhance learning environments...

create engaging places...

develop an evolving school visual resource...

to...

inform...

involve...

and inspire...

Permanent displays of special school projects.

...displays, murals, interactive screens, logo design, glass, wall or floor vinyl graphics, pop up banners, posters, postcards, outdoor signage...

...use your photographs, projects and young peoples work to say something about your school community.

Your school logo here

Creative ideas to enhance the vision for your school

We are an approachable educational design company based in the centre of Birmingham. We work with teachers, staff and pupils to create bespoke projects ranging from logo designs, large format displays and digital projects.

Your school communications:

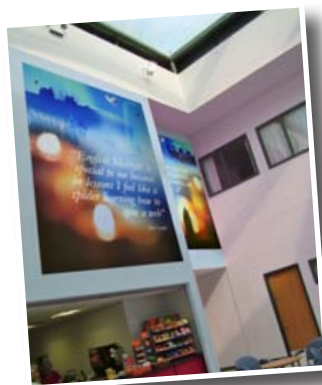

- Your inward facing communications to staff, students and visitors.
- Your outward facing communications to parents, the community, governors, partners and sponsors.
- Design templates for your notice boards, email and website.

Visual communications within your indoor and outdoor school spaces:

- Engage, inform and document projects that will become permanent resources.
- Anti-vandal surface designs, murals or panels, customised for reception areas, school halls, corridors, floors, dining areas and toilets.
- Ideas to represent a wide range of issues that are personal to your school.

Or something a bit special:

- Interior displays including interactive screens and resources.
- Website development with interactive elements.

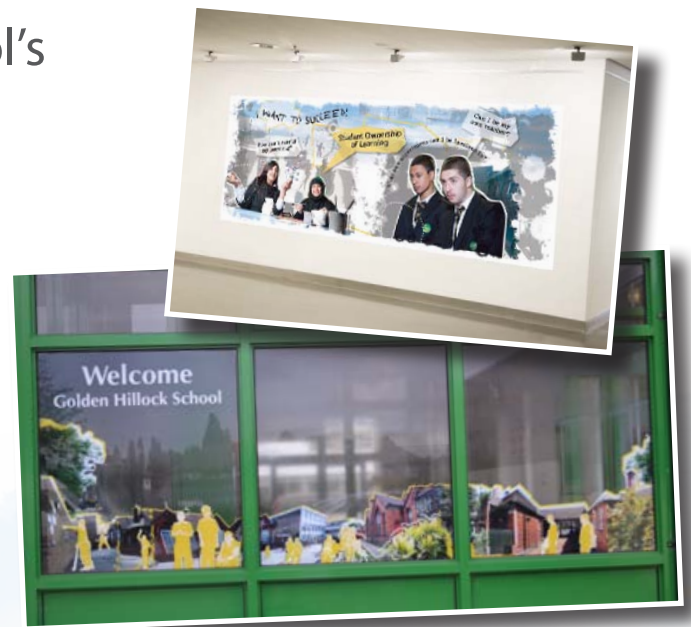

Please contact us and we can help facilitate your ideas or inspire new ones.

We can help you create your school's individual identity by designing:

- Your school logo
- Large format displays, montages, murals, wall resources, outdoor and indoor signage
- Interactive welcome screens, school websites and multi-media development
- Glass, wall or floor vinyls, communication and information design
- Postcards, posters and pop-up banners
- Prospectus, stationery, desktop backgrounds and templates for word
